## **Goldstream RV Launch New 20<sup>th</sup> Anniversary Models**

**Goldstream RV were delighted to launch their new range of 20th Anniversary models last Thursday evening, a week before they are unveiled to the public at the Victorian Caravan, Camping & Touring Supershow.**

Amidst a crowd of media, employees, family, friends and caravan enthusiasts at the company's Pakenham service centre, the event celebrated Goldstream's first twenty years of manufacturing while looking ahead to its incredibly exciting future.

Since their launch in 1993, Goldstream RV have established themselves as one of Australia's most reputable caravan manufacturers.

The anniversary models, the Australis Great Southern Land 19' Rear Ensuite Caravan, the Goldstorm RL Vacationer Series 3 Camper trailer and the Explorer ST Pop-top Caravan, represent a 'new direction' for the company, sporting an edgy new look and drastically updated interiors while reaffirming Goldstream RV's commitment to building some of Australia's toughest and most dependable caravans.

The company recently made a 'massive' investment in a state of the art German-built Beisse cutting machine and edge bander and these new anniversary models are the first glimpse at what this investment will mean for its consumers.

The anniversary models all feature ultra-smooth aluminium bodies, modern interiors and upholstery and flat-pack furniture that make travelling in a caravan more comfortable and luxurious than ever before.

"The way we are going is the future of caravanning", said Russell Willmont, part owner and Production Manager of Goldstream RV. "You have your home life and now you are not far away from it with your caravan."

The Master of Ceremonies was television legend and What's Up Downunder host Frankie J. Holden who delighted those in attendance with a few Ol' 55 hits.

Counselors from the Cardinia Shire Council were also present at the launch, with Mayor Brett Owen paying tribute to Goldstream's commitment to the municipality, which is now the third largest caravan manufacturing area in Australia.

The first owners of a Goldstream RV, Leon and Marg Cottle brought their van along too, which truly demonstrated just how far the company has progressed in just 20 years. The Ballarat couple admitted they are very tempted to upgrade to the new anniversary range. "These are just lovely. It's just so well set-up," said Mr Cottle.

The new anniversary range of Goldstream RV caravans will be on display this week at Stand 373 at the Victorian Caravan, Camping and Touring Supershow at Caulfield Racecourse, 7-12 March.
